## Fund Balance

The Districts fund balance increased close to \$19 million from the end of November to the end of December in the current fiscal year. This was due in large part to real estate tax distributions from the County. December is customarily the month that the District receives its largest distribution payment. The first chart below presents fund balance levels for the first six months of the current fiscal year in comparison to the first six months of two prior fiscal years. The second chart below displays a twelve-month rolling view of the interrelationship between monthly fund balance levels (operating and non-operating combined), monthly revenues, and monthly expenditures.

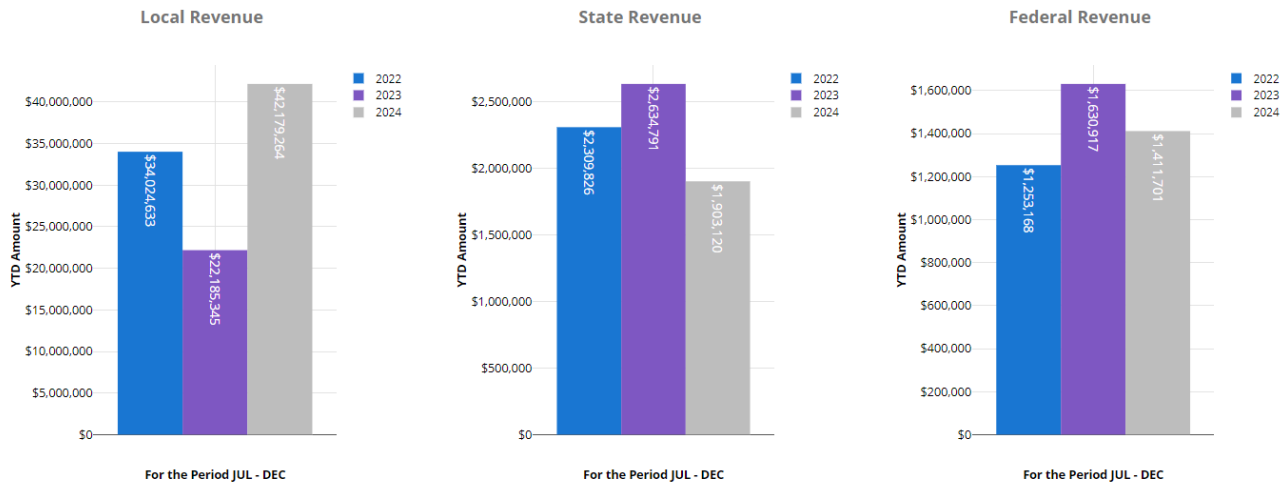

#### Revenues

Revenue received for the fiscal year, through December 31<sup>st</sup>, equates to approximately \$45.9 million. Thus far, local sources have contributed 92% to total fiscal year revenues, whereas state and federal sources have contributed 4% and 3% respectively.

The data and charts below illustrate the differences between the three overarching sources of revenue for the past three fiscal years, for the first six months of each fiscal year.
