Subject: Financial Update for the Period Ending October 31, 2020

Attached for your review are the following reports as of October 31, 2020:

- Fund Balance Report
- Revenue Summary Report
- Expenditure Summary Report

Fund balance in the Operating Funds decreased by \$2.3 million in October to \$54 million. The graph below shows a comparison of monthly fund balances over the last two years. The spikes in fund balance during July/August and February/March represent the District's property tax collections, which make up approximately 85% of the District's total annual revenues. It's very important for school districts to maintain fund balance reserves that are sufficient to cover operations in between those months, particularly during the fall/winter when revenues are typically scarce.

The most recent 12-month period followed a similar trend as the preceding year. Some notable exceptions are:

- December-Fund balance in December decreased at a faster rate due to two board resolutions adopted at the December 16 Board of Education meeting. Resolution #1241 and #1242 directed the transfer of a total \$6 million to the Capital Projects Fund. Both Board resolutions were to help financially prepare the District with enough available funds for the upcoming Capital Projects.
- February-Fund balance typically increases starting in February due to the first installment of property tax revenue collections.
- May and June The two fund balance lines decreased at varying angles because the District's biweekly payroll schedule produced a different number of payrolls each month.
- In October 2020, fund balance in Capital Projects (fund 60) did drop negative. At the end of each calendar year, the District does a transfer from the Education to Operations and Maintenance to Capital Projects to cover then necessary construction. The district is just finishing making all the necessary Capital Projects payments for the school year and will provide the Board with a resolution to transfer the necessary funds.

From a macro-level perspective, the District continues to have a strong financial position at the start of the second quarter of the fiscal year. Fund balance is expected to continue declining over the next 2-3 months of operations when revenues are less substantial Throughout this long-term planning and forecasting the District continues to maintain the goal of operating within its means.

Revenue Summary - October

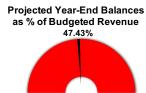

Total revenue for the District was 44% of budgeted revenues as of October 31 for all funds. This is in line with last year's pace.

The District received \$4.2 Million in property tax revenues this month and \$164,000 in Corporate Personal Property Replacement Tax (CPPRT).

State and federal revenue was significant. The District received the standard two installments of Evidence Based Funding from the State (\$306,000). The District also received \$313,000 of federal reimbursements in for previously incurred grant expenditures. This month the district received \$323,000 in transportation revenue.

Expenditure Summary - October

After completing four months of the fiscal year, the District has expended 28% of its overall budget which is slightly behind last year's pace (29%).

Table 1 below shows the year-to-date percentage of the payroll budget (salaries and benefits) that has been spent after each month as compared to last year. Total payroll expenditures are trending as projected in the budget.

Table 1: Payroll Expenditures

	YTD Percent of Budget Spent						
Month	2020-21	2019-20					
October	25%	25%					
September	14%	14%					
August	6%	7%					
July	1%	0%					

The salaries and benefits indicator located on the expenditure dashboard shows actual YTD salaries and benefits running ahead of projected YTD salaries and benefits. When projections were made, it was unclear how the COVID pandemic would specifically affect payroll. As well as information regarding Families First Coronavirus Relief Act (FFCRA) just started to roll in at the start of the school year. At the time of yearly projections, the district had no way of knowing how many staff would take/qualify for FFCRA. It is important to note that the District has maintained the same YTD percentage for payroll as we did last school year.

Table 2 displays the cumulative percentage of the accounts payable budget (purchased services, supplies, equipment, etc.) that has been spent after each month versus last year.

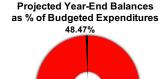

Table 2: Accounts Payable Expenditures

	YTD Percent of Budget Spent						
Month	2020-21	2019-20					
October	33%	41%					
September	31%	33%					
August	26%	24%					
July	15%	12%					

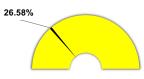

Accounts payable spending is running behind last year's budget pace. Since the worldwide pandemic, the District has been conservative in its spending as the need for substitutes, supplies/equipment, etc has been significantly decreased.
