- **Consider curricular resources**
- **Develop entrance/exit criteria/rubric**

Analysis of High leverage practices

Collaboration

Collaboration allows for varied expertise and perspectives about a student to be shared among those responsible for the student's learning + well-being, ensuring a comprehensive understanding of student needs.

Social/Emotional/Behavioral

Teachers promote student social + emotional well-being by explicit teaching of social skills. Teachers adopt an instructional approach that encourages students opportunities to practice.

Assessment

Assessments - both formal + informal - evaluate a student's academic, behavioral, and functional strengths and needs, and are used to determine supports and measure progress/growth

Instruction

Effective instruction utilizes relevant curricula, applies appropriate standards, learning progressions, and evidence-based practices in tandem with specific individualized education program (IEP) goals and benchmarks.
